Gandhinagar Institute of Technology
07/2019 - 05/2023   *Aggregate CGPA : 8.93*

HSC
Little Flower School
06/2017 - 03/2019   *PR : 88*

WORK EXPERIENCE

Internship (Offline)
Simform Solutions LLP
02/2023 - 09/2023   *Ahmedabad*
React JS Trainee

- Developed web applications and a major project using HTML, CSS, JavaScript, TypeScript, and React JS. Specialized in front-end development, creating captivating interfaces.
- Implemented vital features like form validation, data filtering, dynamic content rendering, secure authentication, real-time updates, and state management. Expertly integrated external APIs to enhance project capabilities, showcasing React JS proficiency.

Internship (Online)
BrainyBeam Technologies Pvt. Ltd.
06/2022 - 07/2022   *Ahmedabad*
Employee Management System

- Developed an Employee Management System, utilizing essential tools such as HTML, CSS, JavaScript, and PHP. Gained valuable insights into both front-end and back-end operations, demonstrating versatility and a strong foundation in web development.

PERSONAL PROJECTS

ViewTube
- ViewTube is a dynamic web application meticulously developed to replicate the core functionalities and immersive user experience of YouTube.
- This project allows users to watch trending videos in their respective countries, explore videos based on their favorite categories, and search for specific content using keywords.
- It also includes key features such as channel subscriptions, liked videos, comments, and related video suggestions. It also offers a sleek and user-friendly dark mode interface, enhancing the viewing experience.
- Tech Stack: **HTML, CSS, Bootstrap, JavaScript, Typescript, React JS, Material UI, Firebase.**

Threads Clone
- Developed a comprehensive Threads Clone app featuring robust authentication, including email, password, and social logins (Google, GitHub). Implemented an intuitive user interface for profile management, threaded conversations, and community creation.
- The app also incorporates advanced features such as multi-level commenting, user search with pagination, activity notifications, and community management tools for seamless user interaction and engagement.
- Tech Stack : **HTML, Tailwind CSS, JavaScript, Next JS, Typescript, MongoDB.**

House Market Place
- It is a React JS application revolutionizing the real estate landscape with dynamic interfaces.
- Facilitates property listing, exploration, and management, seamlessly integrating map-based location tracking and direct landlord communication for an enhanced user experience.
- Tech Stack : **HTML, CSS, Javascript, React JS, Firebase.**

ACHIEVEMENTS

Consistent Excellence: Top 5 Student Performer in Four Semesters
Recognized as one of the top 5 students in the college for four semesters, consistently achieving outstanding academic performance.
